

**MONDAY 3:05-4:05**  
**2/22, 3/1, 3/8, 3/15, 3/22, 4/12, 4/19, 4/26**  
**Make-up class (if needed) on 5/3.**  
**\*Note-no class on 3/29, 4/5**

<b>Instructor TBD</b> <b>GRADES 3-5</b>	<b><u>MAD SCIENCE: PHREAKY PHYSICS</u></b>	<b>NEW CAFETERIA</b> <b>Fee: \$140</b>
<p>We spark imaginative learning when school is out! Engage in 8 weeks of phenomenal physics. Get ready to see the brilliance of light, and the invisible power of magnets. Learn about static electricity, and discover the hidden strength of triangles, arches and cylinders when you build your own super-structure! Some of the weekly topics in this session are: Magnetic Magic, "Watts"up, Under Pressure, Mad Science Machines, "Current" Events, and Energy Burst.</p> <p><b>Mad Science</b> hands-on after-school science programs are devoted to giving children a chance to see just how cool science can be!</p>		

<b>Instructor TBD</b> <b>GRADES K-2</b>	<b><u>INTRODUCTION TO MAGIC</u></b>	<b>LIBRARY</b> <b>Fee: \$130</b>
<p><b>*Making Magic*</b> is back with brand new magic and activities! Not only will you learn to make things vanish and float in the air, you will perform bubble magic, and build your own magic show from start to finish. Magic tricks and supplies are provided for every student and are yours to keep at the end of the session. Join <b>*Making Magic*</b> today and learn everything you need to know to become a real magician!</p> <p><b>The Hobby Quest</b> was established in 2002 and provides educational enrichment in schools throughout New York and New Jersey.</p>		

<b>Melanie Rose</b> <b>GRADES K-5</b>	<b><u>JEWELRY DESIGN</u></b>	<b>WINNIE THE POOH</b> <b>Fee: \$175</b>
<p>Necklaces, bracelets, pins, headbands, hair wraps and more . . . jewelry galore! Each week students will create at least one beaded item to take home. Students will be introduced to stringing on leather, artistic wire, and other materials as well as tons of beautiful beads, pendants, and charms to create their jewelry and accessories. Both new and experienced beaders of all ages will be accommodated and some new projects will be offered for returning students. Don't miss out on one of Chatsworth's most popular clubs!</p> <p><b>Melanie Rose</b> is the owner of <u>Beadz</u>, the bead boutique/party store in Larchmont.</p>		

<b>Alex Glass</b> <b>GRADES 1-5</b>	<b><u>FOR LOVE OF ART - FROM EXPRESSIONISM TO MODERNITY</u></b>	<b>ROOM 12</b> <b>Fee: \$125</b>
<p>Using the Lincoln Center method designed to foster aesthetic appreciation, students will work in the style of expressionist painters such as Cezanne, Gauguin, Rousseau and/or Munch and early modern artists such as Matisse, Mondrian or Calder and reflect on each artist. Students will share (and can borrow) books and videos giving historic and artistic context to each artist. Each participant will reflect on some of his/her own artwork and be invited to Chatsworth for an Art-Movie night after the class ends.</p> <p><b>Alex Glass</b> is a beloved kindergarten teacher at Chatsworth, and has taught 1st and 2nd grades for 12 years. He has also been the Lincoln Center Coordinator and seeks to develop an appreciation of art in his students.</p>		

<b>James Bruce</b> <b>GRADES K-2</b>	<b><u>PRE-ENGINEERING WITH LEGO®</u></b>	<b>NEW CAFETERIA</b> <b>Fee: \$160</b>
<p>Create, play, and learn. Build a town, city, or star base with houses, buildings, pyramids, bridges, tunnels, towers, and more. Build motorized cars, trains, buses, and trucks; race them; crash them; repair them. Explore the many possibilities of LEGO® building systems while learning useful construction techniques.</p> <p><b>Play-Well TEKnologies</b> has been teaching for over ten years in California as well as several years in the New York Metro Area. Using LEGO building systems, Play-Well faculty teaches kids the fundamentals of science, technology, engineering, math, physics, architecture, design and robotics, preparing them for successful futures. (This class is not affiliated with the LEGO™ Group.)</p>		

**TUESDAY 3:05-4:05**  
**2/23, 3/2, 3/9, 3/16, 3/23, 4/6, 4/13, 4/20**  
**Make-up class (if needed) on 4/27.**  
**\*Note-no class on 3/30**

<b>Tim Buckley Heath</b> GRADES 4-5	<u><b>LIGHTS, CAMERA, ACTION!</b></u>	ROOM 310 Fee: \$150
--	---------------------------------------	------------------------

In this program, students will get the opportunity to take part in an action-packed video production. Students will be introduced to virtually all aspects of the movie-making process. They will be provided with start-to-finish insights into design, treatments and storyboards, acting and editing, up through final production. Students will also gain an understanding of the use of audio and video special effects in software editing programs. In addition, green screens will be utilized to provide amazing scene layering effects. At the end of the session, each student will receive a professionally produced DVD with personalized cover graphics!

**Tim Buckley Heath** has been teaching video production and computer graphics for over ten years. He also teaches summer courses for The Gifted and Talented Development Center's Challenge Camps. You can see some of his videos on the web at: [www.challengecamps.com](http://www.challengecamps.com)

<b>Kate Long</b> GRADES 3-5	<u><b>PLAYWRITING</b></u>	ROOM 104 Fee: \$125
--------------------------------	---------------------------	------------------------

Let your child learn to write for theater and discover their inner Albee or Wasserstein. This class will help students develop characters and plot lines using improvisational acting and writing techniques. Each student will act and write every week in a supportive and creative setting. Plays may be written individually or in collaboration. Completion of a one-act play is the goal of the class.

**Kate Long** is a local mother who also happens to love and work in the theater throughout New York .

<b>Casper Gyldensoe</b> GRADES K-2	<u><b>MUSICSTART®: Learn to Read Music and Play Tunes</b></u>	ROOM TBD Fee: \$165
---------------------------------------	---	------------------------

MusicStart® is a patented, progressive learning system that teaches kids to read music and play tunes by balancing fun and development of skills. They have assembled an after-school music program with a clear, easy to teach curriculum and a durable, simple keyboard designed for learning, called the MusicStart® Keyboard. The MusicStart® Keyboard uses 4 instructive Attachments that vary the challenge from color matching to reading standard musical notation. MusicStart® is preparation for (or a supplement to) playing any instrument and teaches step-by-step problem solving.

The MusicStart® program started in 2005, and is running in after school programs in NY, NJ, and CT. MusicStart® teachers come from top music colleges. Visit [www.beginmusic.com](http://www.beginmusic.com) for more information and an on-line video of MusicStart in action!

<b>Ana Saura</b> GRADES K-5	<u><b>3-D PAINTING</b></u>	WINNIE THE POOH Fee: \$140
--------------------------------	----------------------------	-------------------------------

Learn to create beautiful and bold 3-D art using acrylics! At the end of the session, students will have his/her own 3-D masterpiece to take home!

**Ana Saura** is the previous owner of Creative Corner, which she sold in order to pursue her own painting career. Her expertise is in three dimensional pieces of artwork!

<b>Michael Krevlin</b> GRADES K/1	<u><b>ART-N-ORBIT: Young Inventors-n-Explorers</b></u>	NEW CAFETERIA Fee: \$195
--------------------------------------	--	-----------------------------

Art-n-Orbit is a unique art and science program that focuses on children's creative spirit while they learn the fundamentals of art and science. This class is for the younger explorer. Every class is an adventure. We pretend to be Paleontologists and dig for fossils. We make our own exploding volcanoes, go on treasure hunts, build light-up spaceships and much more. Our hands-on classes are both engaging and educational for boys and girls. Each week your children leave with their own tailor-made project that is a source of accomplishment and joy. Many projects are created from fun recycled materials.

**Michael Krevlin** has been teaching classes in NYC for eight years, and is a Chatsworth dad.

**THURSDAY 3:05-4:05**  
**2/25, 3/4, 3/11, 3/25, 4/8, 4/15, 4/22, 4/29**  
**Make-up class (if needed) on 5/6.**  
**\*Note-no class on 3/18, 4/1**

<b>Bill Cwikowski</b> GRADES 3-5	<u><b>THE ART OF ACTING</b></u>	<b>ROOM 103</b> <b>Fee: \$125</b>
<p>Giving structure and voice to your child's fertile imagination, we will begin to discover the creation of character. The simple, creative and exciting exercises will also assist in the development of reading, writing, and listening skills.</p> <p><b>Bill Cwikowski</b>, a Larchmont dad, has taught theater and acting for many years at Symphony Space and throughout New York City.</p>		

<b>Christian Vogeler</b> GRADES 4 & 5	<u><b>LMC-TV BROADCAST WORKSHOP</b></u>	<b>WINNIE THE POOH</b> <b>Fee: \$140</b>
<p>Ever wonder how TV news is made? Ever want to turn your classroom into a newsroom? Learn how with LMC-TV's after school Broadcast Workshop. With LMC-TV's equipment, you will learn how to shoot, edit, write, and broadcast your own news show. At the end of the club, your show will appear on Channel 75 on Cablevision in Larchmont and Mamaroneck AND you will receive your own copy of the show.</p> <p><b>LMC-TV</b>, the public access TV station serving Larchmont and Mamaroneck, offer ongoing classes in basic television production at their facility in Mamaroneck.</p>		

<b>Michael Krevlin</b> GRADES 2-4	<u><b>ART-N-ORBIT: Inventions-n-Concoctions</b></u>	<b>NEW CAFETERIA</b> <b>Fee: \$195</b>
<p>Art-n-Orbit is a unique art and science program that focuses on children's creative spirit while they learn the fundamentals of art and science. We explode our own Volcanoes, explore the Universe, create Spinning Robots that zoom across the floor, conduct fun science experiments and much more. Our hands-on classes are both engaging and educational for boys and girls. Each week your children leave with their own tailor-made project that is a source of accomplishment and joy. Many projects are created from fun recycled materials. New projects are featured each semester so your child can continue the learning experience.</p> <p><b>Michael Krevlin</b> has been teaching classes in NYC for eight years, and is a Chatsworth dad.</p>		

<b>Instructor TBD</b> GRADES K-2	<u><b>MAD SCIENCE: PHREAKY PHYSICS</b></u>	<b>NEW CAFETERIA</b> <b>Fee: \$140</b>
<p>We spark imaginative learning when school is out! Engage in 8 weeks of phenomenal physics. Get ready to see the brilliance of light, and the invisible power of magnets. Learn about static electricity, and discover the hidden strength of triangles, arches and cylinders when you build your own super-structure! Some of the weekly topics in this session are: Magnetic Magic, "Watts"up, Under Pressure, Mad Science Machines, "Current" Events, and Energy Burst.</p> <p><b>Mad Science</b> hands-on after-school science programs are devoted to giving children a chance to see just how cool science can be!</p>		

**FRIDAY 3:05-4:05**  
**2/26, 3/5, 3/12, 3/19, 3/26, 4/9, 4/16, 4/23**  
**Make-up class (if needed) on 4/30.**  
**\*Note-no class on 4/2**

<b>Andrew Dyson</b> GRADES 1-5	<u>STUDYING &amp; COPYING FAMOUS PAINTINGS</u>	NEW CAFETERIA Fee: \$110
<p>No better way to know something than by drawing it! We will learn about 8 iconic paintings by reproducing and discussing them. All art materials will be provided. Your child will bring home an art book at the end of the session that will look like a Guggenheim catalogue.</p> <p><b>Andrew Dyson</b> has been teaching art and music to Larchmont children for 10 years.</p> <p>*Note-this class will NOT meet on 2/26 &amp; 4/9, but WILL meet on 4/30 &amp; 5/7.</p>		

<b>Noreen Boram</b> GRADES 1-5	<u>WEAVING, BEADING &amp; MORE!</u>	ROOM 26 Fee: \$ 150
<p>Bring your imagination to life and create a unique design of your own! Beginning weavers start with paper, felt or a cardboard loom and yarn. Intermediate weavers can add beads and patterns, use or make other looms, or sew several weaving cloths together. Books, websites, and other sources can also be used for ideas and inspiration. The possibilities are endless! Participants should bring a large bag to bring ongoing projects home each week. We hope you'll join us!</p> <p><b>Mrs. Borom</b> is a 3rd grade teacher who has taught both 2nd and 3rd grade at Chatsworth for over 10 years. You may also know her as Ms. Yeh!</p>		

<b>Terrance Custer</b> GRADES 1-5	<u>COMPUTER KEYBOARDING, PLUS!</u>	ROOM 310 Fee: \$110
<p>Children will learn the correct way to type using appropriate computer programs. 1<sup>st</sup> and 2<sup>nd</sup> graders will learn locations of letters, numbers, punctuation, and how to make upper case letters, as well as writing basics. More advanced students will learn correct hand placement and then move on to "touch typing" with the help of keyboard covers. The "PLUS" is that if the child needs help with homework projects involving computer programs, Mr. Custer will let them work on it for the last ½ hour of the class.</p> <p><b>Terrance Custer</b> has run the computer lab at Chatsworth for the past six years.</p>		

<b>Polly Wright</b> GRADES K-5	<u>CHESS</u>	WINNIE THE POOH Fee: \$115
<p>Starting with how the pieces move and interact, students will learn to play this fascinating game of logic and to compete in a fun and supportive environment. Advanced players will learn new techniques on how to improve their play.</p> <p><b>The National Scholastic Chess Foundation (NSCF)</b> is a non-profit foundation organized for educational purposes which promotes the study of chess as an educational tool in schools throughout Westchester.</p>		

<b>Brett Slavin</b> GRADES K-5	<u>CLAY WORKSHOP</u>	NEW CAFETERIA Fee: \$155
<p>Learn to create your own ceramic artwork. Program will teach basic techniques such as pinch-pot, slab, coil, and drape mold. Terracotta clay will be used. Once the piece is formed, it is painted in the same session with engobe, or "clay paint". The work will then be dried and fired in a kiln twice, having been glazed professionally, and returned in a glossy food safe finish. In each class, the students will be doing a different project.</p> <p><b>Brett Slavin</b> is a professional sculptor in Rye Brook and has over 11 years of teaching experience.</p>		

<b>Brian M. Carter</b> GRADES K-5	<u>DRUMMING</u>	ROOM 5 Fee: \$155
<p>Music is the sound track of every life, and children are our natural musicians. Percussion is theirs by nature. What better way to bring music into the lives of young children than through percussion's vibrant rhythms and sounds?</p> <p><b>Brian M. Carter B.S./M.F.A.</b>, is a master percussionist and teacher in Westchester for 22 years.</p>
