Act, pretend, play - where will our imagination take us today?

This fun drama class will take children on exciting adventures where their imaginations have the starring role! The class (not just for the outgoing) will build confidence, communication and language skills; encourage empathy and emotional intelligence; stretch creativity and concentration while fostering cooperation.

Theater games, mime, movement, storytelling and voice exercises are all incorporated into each class. Taught by **Rachel Horan**, a Chatsworth mom, an experienced drama teacher, theater director and former BBC producer and director.

**ART N ORBIT #1**

**New Cafeteria**  
**Fee: \$225**

Art-n-Orbit is a unique art and science program that focuses on children's creative spirit while they learn the fundamentals of art and science. We explode our own Volcanoes, explore the Universe, create Spinning Robots that zoom across the floor, conduct fun science experiments and much more. Our hands-on classes are both engaging and educational for boys and girls. Each week your children leave with their own tailor-made project that is a source of accomplishment and joy. New projects are featured each semester so returning students can continue the learning experience.

**Michael Krevlin** runs Art-n-Orbit and is a former Chatsworth dad.

**YOUNG MAGICIANS**

**New Cafeteria**  
**Fee: \$139**

Hocus pocus, a la kazam, these magic tricks are a grand slam!

In this captivating program young illusionists are taught to master the mysteries of magic, from theatrical wonders to one-on-one amazements. From mind reading and card illusions to disappearing and transforming, you'll learn to perform fabulous feats that will astound your audience over and over. Your friends will say "Wow!" when you show them the **RISING CARD** trick, it's just like the one performed by the famous David Blaine! And if that wasn't amazing enough, you'll also learn to manipulate solid objects with the **COIN IN A BOTTLE** trick. Using only your illusionary prowess you'll transport a coin to the inside of an empty, sealed bottle in less than a second. These tricks are just a few of the many wondrous feats you'll be able to show off.

**LEGO ENGINEERING TICKET TO RIDE**

**Room 104**  
**Fee: \$135**

As the weather changes, join us as we build winter fun models to thank the cold for the awesome activities we enjoy and then our favorite amusement park rides we look forward to as temperature increases. Not only will we be hitting the slopes with our skiing and snowmobile models, we'll also have the thrill of our Carousel Swing, Tilt a Whirl and much more. Sounds like a lot of fun, right? Students will have so much fun they won't even notice that they'll be learning principles of physics, described in a way children can understand, such as "G-force" inertia and momentum, as well as math concepts such as "there are 360 degrees in a circle".
